Main Idea Mix-up!

Oh no! The main ideas and supporting details for the "American Indians and Spanish Missionaries" and "The Virginia Colony" got mixed up! I seemed to have thrown an extra detail in too and I can't remember which one the extra is! I remember that it did not support the main idea as well as the others. Will you help me? All you have to do is read the statements, and search for them in your magazine. **Determine which one is the title, the main idea, and the supporting details, and write it on the line.** There will also be a fourth detail that does not support the main idea. Write **no detail** on that line. It would also help me out if you could **highlight the sentence in your magazine and then write the page number next to the sentences** on this paper. This way, I know exactly where to find it when I come back to it later!
